

Company profile

Founded by mechanical engineers in Ankara, Fetaş is serving at the Fire Protection Sector as a manufacturer since 1980.

Pioneering the use of fire hose cabinets in Turkey, in the first years of its establishment, our firm has educated private and state institutions about, what fire hose cabinets are and why they should be used. Today, Fetaş is leading the fire protection sector with its designs, quality and manner of service.

OUR VISION:

Becoming a global brand in the Fire Protection field.

OUR MISSION:

Remaining the No: 1 choice of customers.

Keeping our products at top position in the market with their designs and performance.

Representing Turkey in the International Fire Protection Sector with our sense of high quality and service.

We can perform tests required by the **EN-671-1** and **EN-671-2** in our laboratories placed at our facility. We can also test the performance, quality and ergonomics of our new designed products in our own laboratories.

In accordance with our vision which is to become a global brand in fire protection field, Fetaş always follows and applies the latest version of softwares and technologies.

Fetaş is audited eight times a year by independent organizations, due to below mentioned certificates.

Fetaş has the highest number of product design registries, under the context of “**Fire**” in Turkish Patent Institute. Having all its products designed in **FETAŞ Research and Development Dept.**; Fetaş is the only company in fire safety that is awarded by “**PRODUCT DEVELOPMENT**” prize from Ankara Chamber of Industry.

All Fetaş products are “**2 YEARS GUARANTEE**” against manufacturing failures, except from usage and mounting failures. Also Fetaş is giving “**10 Years Spare Parts Supply Guarantee**”.
